

January 2016

Curriculum Vitae

Peter Turchin

Department of Ecology and Evolutionary Biology
 University of Connecticut, Storrs, CT 06269-3043
 tel: 860-486-3603; fax: 860-486-6364
 e-mail: Peter.Turchin@UConn.edu
 Web site: <http://PeterTurchin.com>

Education:

1985	Ph.D.	Duke University	Zoology (minor: mathematics)
1980	B.A.	New York University	Biology (cum laude)
1975–7		Moscow State University	Biology

Professional Positions:

Department of Ecology and Evolutionary Biology, University of Connecticut

2002–	Professor
1997–02	Associate Professor
1994–97	Assistant Professor

The Evolution Institute

2010–	Vice-President and Founding Member of the Board of Directors
-------	--

University of Oxford

2013–	Research Associate
-------	--------------------

Religion, Cognition, and Culture, Aarhus University, Denmark

2013–4	Distinguished Fellow and Visiting Professor
--------	---

Santa Fe Institute

2007–8	Visiting Professor
--------	--------------------

Southern Forest Experiment Station, Forest Service Research

1990–94	Supervisory Ecologist
1988–90	Ecologist

Department of Zoology, University of Washington

1988	Lecturer
1985–88	Postdoctoral Research Associate

Department of Zoology, Duke University

1983–85	Teaching Assistant
---------	--------------------

Professional Activities:

Symposia, workshops, and working groups organized

2015	Strüngmann Forum on Evolutionary Economics. February 2015, Frankfurt, Germany (with David S. Wilson, Ulrich Witt, Alan Kirman, and Eric Beinhocker)
2013	Evolution of Institutions. A Working Group at NIMBioS, Knoxville, TN (with Peter Richerson and Jenna Bednar)
2012	Historical Database of Sociocultural Evolution: Design and Coding. November 2012; Storrs, CT.
2012	Towards a Formal Theory for the Evolution of Human Social Complexity. An investigative workshop at the NIMBios. February 6–8, 2012; Knoxville, TN (with Laura Fortunato and Sergey Gavrilets)
2011	An Evolutionary Approach to the Twin Problems of Failed States and Nation-Building. A Working Conference Organized by the Evolution Institute. December 3–5, 2011; Palo Alto, CA
2006	Measuring and modeling cycles of state formation, decline and upward sweeps since the bronze age. San Diego (with C. Chase-Dunn).
2004	Analyzing Complex Macrosystems as Dynamic Networks. A workshop at the Santa Fe Institute (with D. White and C. Chase-Dunn).

- 2004 Studying Political Centralization Cycles as a Dynamic Process. Organized an invited panel at the Third International Conference on Hierarchy and Power in the History of Civilizations, Moscow, Russia.
- 2000–7 Working group on Landscape Ecology of Reintroduced Ungulate Populations (an NSF-funded joint project of the universities of Connecticut, Wisconsin, Alberta, and Guelph)
- 1998 Nonlinear time-series analysis. Workshops at Leiden University, Netherlands; and University of Marseilles, France.
- 1997 Building empirically-based theory for spatial ecology: tales from the front lines. Invited Symposium at Ecological Society of America Annual Meeting, Albuquerque, NM.
- 1995–98 Working Group on Complex Population Dynamics (*with W. Murdoch*). NCEAS, Santa Barbara, CA.

Service

- 2012– Founding Editor and Overall Coordinator, *Seshat: Global History Databank*
- 2011–15 Editor-in-Chief, *Social Evolution Forum*
- 2010– Editor-in-Chief, *Clodynamics: The Journal of Quantitative History and Cultural Evolution*
- 2004 Sino-US Collaboration Project *Ecological Complexity and Ecosystem Services*
- 2000 NSF Site Visit Team for the National Center for Ecological Analysis and Synthesis
- 1999–02 Editorial Board, *Researches in Population Ecology*
- 1998–00 Associate Editor, *Ecology Letters*.
- 1995–97 Scientific Advisory Board, National Center for Ecological Analysis and Synthesis; Santa Barbara, CA
- 1993–97 NSF Ecological Studies Panel
- 1992 NSF Special Projects Panel

Honors or distinctions

- 2010 Main guest speaker for IDER symposium on *Modeling reality: the use of mathematical models to describe and predict social dynamics*. Ben Gurion University of the Negev, Israel
- 2004 *ISI Highly Cited* identified Turchin as a top cited author in the field of Ecology/Environment
- 2003 UConn Alumni Association's Award: Faculty Excellence in Research
- 2000–01 Fulbright Scholarship
- 2000 Chancellor's Research Excellence Award (University of Connecticut)
- 1999 Invited Lecturer at Oikos Seminar on Costs and Gains of Recent Progress in Ecology
- 1997 Elected Chair of the Theoretical Ecology Section of the Ecological Society of America
- 1995 Invited Guest Speaker at the Society of Population Ecology Meeting; Mie, Japan

Postdoctoral Associates:

- 2015– Daniel Mullins
- 2014–15 Daniel Hoyer (University of Toronto)
- 2011–14 Pieter Francois (University of Hertfordshire and University of Oxford)
- 2004–05 Juan Manuel Morales (Universidad Nacional de Comahue)
- 2003–05 Mosheh Wolf (Desert Turtle Preserve Committee)
- 1999–03 Kim Cuddington (Miami University of Ohio)
- 1995–98 Rich Wilkens (Dowling College)
- 1993–95 Jim Cronin (University of Louisiana)
- 1989–90 Andy Taylor (University of Hawaii)

Ph.D. students graduated:

Jay Bancroft (2000)
 Eric Schaubert (2000)
 Kristian Omland (2001)
 Juan Manuel Morales (2004)

Research grants

2014–16	John Templeton Foundation.	Axial-Age Religions and the Z-Curve of Human Egalitarianism (with T. Currie and H. Whitehouse)
2014–15	Tricoastal Foundation.	The Deep Roots of the Modern World: Investigating the Cultural Evolution of Economic Growth and Political Stability (with T. Currie)
2011–15	ESRC	Ritual, Community, and Conflict (Project Director: H. Whitehouse)
2005–08	NSF	Global state formation: modeling the rise, fall and upward sweeps of large polities in world history and the global future (with C. Chase-Dunn and E. Anderson)
2005–07	NSF	Supplement to the 2000–5 NSF-IRCEB grant
2000–05	NSF	IRCEB: Building a mechanistic basis for landscape ecology of ungulate populations (with J. Fryxell, M. Turner, M. Boyce, and E. Merrill)
1997–99	NSF	Dispersal as a mechanistic basis for landscape ecology: the role of scale and heterogeneity.
1997–2000	NSF	Direct and indirect effects on community resilience in oak forests.
1996–98	NCEAS	Working group on complex population dynamics.
1995–98	NSF	Testing reaction-diffusion theory: spatial dynamics in a bark beetle–predator system.
1994–96	UConn	Investigating small mammal cycles with empirically-based models.
1992–95	USDA	Evaluation of the area-wide efficacy of direct control tactics for southern pine beetle.
1992–94	USDA	Effects of thinning on southern pine beetle risk to old-growth pine stands.
1991–92	USDA	Effects of mixed pine – hardwood management on pine mortality due to bark beetles: a landscape approach.
1989–91	USDA	Empirical and quantitative analysis of intraforest dispersal in the southern pine beetle.
1986–88	NSF	Influence of host patch size on herbivore population dynamics.

Publications

Books

Turchin P. 2016. *Ultrasociety: How 10,000 Years of War Made Humans the Greatest Cooperators on Earth*. Beresta Books, CT.

Turchin P, Nefedov SA. 2009. *Secular Cycles*. Princeton University Press, Princeton, NJ.

Turchin P. 2005. *War and Peace and War: Life Cycles of Imperial Nations*. Pi Press. (Serbian translation: 2006; Korean translation: 2006; Russian translation: to be published soon). Published as a paperback under the title *War and Peace and War: The Rise and Fall of Empires* by Plume/Penguin in February 2007.

Turchin P. 2003. *Historical Dynamics: Why States Rise and Fall*. Princeton University Press, Princeton, NJ. (Russian translation published in 2007)

Turchin P. 2003. *Complex Population Dynamics: a Theoretical/Empirical Synthesis*. Princeton University Press, Princeton, NJ. (Russian translation: 2008; Japanese translation: to be published soon)

Turchin P. 1998. *Quantitative Analysis of Movement: Measuring and Modeling Population Redistribution in Animals and Plants*. Sinauer Associates, Sunderland, MA.

Edited Books

- Turchin PV, Grinin LE, Malkov SYu, Korotayev AV (editors). 2007. *History and Mathematics: Conceptual Landscape and Research Directions* (in Russian). URSS, Moscow
- Turchin P, Grinin, L, Korotayev, A, de Munck VC (editors). 2006. *History and Mathematics: Historical Dynamics and Development of Complex Societies*. URSS, Moscow.

Invited Speaker at Meetings (recent)

- 2015 Arne Naess Symposium, Oslo, Norway. October 1, 2015
- 2015 Crisis as an Opportunity: Can Interdisciplinary Perspectives from Evolutionary Biology, the Social Sciences and the Humanities Make a Change? PhD course, CSMN/Center for Development and the Environment, the University of Oslo, Norway. 28 September – 2 October 2015
- 2015 The Haves and the Have-Nots: Exploring the Global History of Wealth and Income Inequality. An International Conference in Vienna, Austria. September 10-12, 2015.
- 2015 For Concordance in Macrohistorical Datasets. Santa Fe Institute, Santa Fe, NM. May 4-6, 2015
- 2015 Workshop on Cultural Evolution, University of Maryland, College Park. March 18-20, 2015
- 2014 International Conference on Contextualising Technical Innovations in Prehistory. Max Planck Institute for the History of Science, Berlin, Germany. November 24-26, 2015
- 2014 International Workshop on Computational History, Royal Irish Academy, Dublin. June 27, 2014
- 2014 The Mathematics of Impending Social Implosion. A public lecture at the Royal Irish Academy, Dublin. June 26, 2014
- 2014 Military in Politics in the 21st Century. Institute for Advanced Studies, Toulouse, France. June 4-5, 2014
